

Shaping housing

the future of

housing

How should
your housing
services be
managed in
the **future?**

Housing services, such as carrying out repairs, improving homes and collecting rent are currently managed by The Gateshead Housing Company.

Gateshead Council is reviewing the management of these services, to ensure they can be kept at a high level, whilst making sure they also remain good value for money.

Later this year, more than 21,000 tenants and leaseholders will be asked for their views about who manages these services in the future.

Before then, it is important tenants and leaseholders are given clear and useful information.

Tenants and leaseholders will be able to get more information in a number of ways, including:

- At a series of roadshows and drop-in sessions
- Online, by e-mail and by using Twitter and Facebook
- Speaking to an independent advisor – Wood Holmes.

For independent advice about the review contact Wood Holmes on freephone **0800 023 4705** (charges apply to mobile phone use), e-mail **info@ghoia.co.uk** or visit **www.ghoia.co.uk**
